6. SACRAMENTS OF HEALING:

RECONCILIATION OR PENANCE

(Catechism of the Catholic Church 1486, 1497. Individual and integral confession of grave sins followed by absolution remains the only ordinary means of reconciliation with God and the Church)

By which sins after Baptism are forgiven

The Fruits of the Sacrament are:

- Reconciliation with God: the penitent recovers sanctifying grace.
- Reconciliation with the Church.
- Remission of the eternal punishment incurred by mortal sins.
- Remission of, at least in part, of temporal punishment resulting in from sin.
- Peace and serenity of conscience, and spiritual consolation.
- An increase of spiritual strength for the Christian battle.

Anointing of the Sick

By which a special grace is conferred during grave illness or old age.

The fruits of the Sacrament are:

- Unity with the Passion of Christ, for the sick person's own good and that of the whole Church.
- Strength, peace, and courage to endure as a Christian the sufferings of illness or old age.
- **Forgiveness of sins, if the sick person was not able to obtain it through the Sacrament of Penance.**
- Restoration of health, if it is conducive to the salvation of the soul.
- Preparation for entering eternal life.

Who may receive the Sacrament of the Anointing of the Sick?

The Letter of St James (*see James 5: 13-16*) states that the sick are to be anointed in order to raise them up and save them great care and concern should be taken to see that those of the faithful whose health is seriously impaired by sickness or old age receive this sacrament.

A prudent or reasonably sure judgement, without scruple, is sufficient for deciding on the seriousness of an illness; if necessary a doctor may be consulted.

The sacrament may be repeated if the sick person recovers after being anointed and then again falls ill or if during the same illness the person's condition becomes more serious.

A sick person maybe anointed before surgery whenever a serious illness is the reason for the surgery.

Elderly people may be anointed if they have become notably weakened even though no serious illness is present.

Sick children may be anointed if they have sufficient use of reason to be strengthened by this sacrament.

In public and private catechesis, the faithful should be educated to ask for the sacrament of anointing and, as soon as the right time comes, to receive it with full faith and devotion. They are not to follow the wrongful practice of delaying the reception of the sacrament. All who care for the sick should be taught the meaning and purpose of the sacrament.
